

Philip Eash-Gates, Senior Principal

Synapse Energy Economics | 485 Massachusetts Avenue, Suite 3 | Cambridge, MA 02139 | 617-661-3248
peash-gates@synapse-energy.com

PROFESSIONAL EXPERIENCE

Synapse Energy Economics, Inc., Cambridge, MA. *Senior Principal*, April 2025 – Present, *Principal Associate*, May 2022 – April 2025, *Senior Associate*, September 2019 – May 2022

Provides consulting and researching, conducts modeling and analysis, and prepares expert reports on issues including carbon and energy policy, strategic electrification, energy efficiency, energy supply technologies, building performance standards, energy justice, state and municipal energy planning, energy program design and delivery, and health and environmental impact assessment.

Massachusetts Institute of Technology, Trancik Lab, Cambridge, MA. *Research Assistant*, 2017 – 2019

Developed quantitative models and engineering cost tools to accelerate the performance evolution of clean energy technologies. Proposed innovations to improve technoeconomic analysis of nuclear and solar power systems. Collaborated with researchers across national laboratories, academia, and industry.

CVAL Innovations, Dallas, TX. *Director of Efficiency Projects*, 2014 – 2017

- Recruited and directed an interdisciplinary team of engineers, contractors, and energy analysts to develop and implement customized deep energy retrofits and strategic building electrification, achieving an average reduction in energy consumption of 45%.
- Expanded engineering and consulting services to include strategic resource and sustainability planning, building portfolio analysis, and energy systems commissioning.

City of San Antonio, Office of Sustainability San Antonio, TX. *Energy Manager*, 2013 – 2015, *Special Projects Manager*, 2012 – 2013, *Senior Management Analyst*, 2009 – 2012

- Developed and managed City of San Antonio's first low-income weatherization program, *Casa Verde*. Oversaw comprehensive retrofits for energy conservation, health, and safety in 3,200 households. Coordinated co-delivery of related programs, including energy bill assistance, water conservation, and housing repair.
- Created and administered the City of San Antonio's first Energy Management Division.
- Established a revolving Energy Efficiency Fund to capture municipal energy savings and reinvest in projects.
- Secured and managed \$25M in U.S. DOE grants to deploy energy efficiency, conservation, and renewable energy projects and programs throughout the community.
- Monitored performance of 3,200 utility accounts and 650 City facilities to develop a comprehensive energy conservation strategy.
- Maintained 5-year budget and project pro-forma to fund a comprehensive retrofit program for municipal buildings. Developed and implemented performance-driven retrofits to reduce

energy and water consumption.

- Managed stakeholder review of building energy codes to recommend improvements toward achieving net-zero energy by 2030. Guided the City to adopt the most advanced building energy codes in Texas.
- Sample community programs managed: low-income residential weatherization program, one-stop sustainability and green jobs training campus, community shade tree program for energy savings.
- Sample performance metrics: 3,320 residences weatherized; 5,700 shade trees planted for energy conservation; 178 municipal facilities upgraded – advanced lighting technology and controls, retro-commissioning, efficient heating and cooling systems, thermal envelope improvements, water conservation upgrades.

City of San Antonio, Office of Mayor Phil Hardberger San Antonio, TX. *Sustainable Energy Analyst*, 2008 – 2009

- Advised the Mayor on the economic, societal, and environmental viability of various energy generation portfolios for the City's municipal power utility. Developed energy efficiency, demand response, and renewable resource portfolio to successfully avert construction of new coal generation.
- Assisted with the creation of the City's first sustainability plan, Mission Verde. Developed key initiatives focused on green jobs training and deployment of clean energy technologies.

EDUCATION

Massachusetts Institute of Technology, Cambridge, MA

Master of Science in Technology and Policy, 2019

Trinity University, San Antonio, TX

Bachelor of Science in Engineering Science; Minors in Environmental Studies and Mathematics, 2008

CERTIFICATIONS

- Professional Engineer, Texas Board of Professional Engineers
- Certified Energy Manager, Association of Energy Engineers, ANSI accredited
- Certified Measurement and Verification Professional, Association of Energy Engineers

TRAINING AND PROFESSIONAL ACTIVITIES

- **Modeling tools and software:** R, MATLAB, Excel, ENERGY STAR Portfolio Manager, EnergyPlus, OpenStudio, eQUEST, ComStock, ResStock, Scout, Building Decarbonization Calculator (BDC), Energy Model for Building Emissions Reduction (EMBER), National Energy Modeling System (NEMS), System Advisor Model, Distributed Energy Resources Customer Adoption Model (DER-CAM), EnCompass, AVOIDed Emissions and geneRation Tool (AVERT),

Environmental Justice Screening and Mapping Tool (EJScreen), CO-Benefits Risk Assessment Health Impacts Screening and Mapping Tool (COBRA), ProEngineer, Engineering Equation Solver, Salesforce, LaTeX, SAP, Microsoft Office Suite

- **Technical Advisory Committees:** Boston BERDO Technical Advisory Group, Newton BERDO Team, Build San Antonio Green, Texas Property Assessed Clean Energy, City of San Antonio Building-Related and Fire Codes Appeals and Advisory Board
- **Professional Coursework:** Leadership in Energy and Environmental Design (LEED), International Energy Conservation Code, energy management, International Performance Measurement & Verification Protocol (IPMVP), contract administration, grants management & compliance, supervisor training academy, diversity equity and inclusion
- **Organizational Affiliations:** Association of Energy Engineers, U.S. Green Building Council, National Council for Examiners for Engineering and Surveying (NCEES), Texas Board of Professional Engineers and Land Surveyors, Build San Antonio Green, South-central Partnership for Energy Efficiency as a Resource
